

PROGRAM : 2

Create a HTML file to link to different HTML page which contains images, tables, and also link within a page.

```
<html>

<head>

<title>img</title>

</head>

<body>

<a id="top">

<br><br>

<table border="3">

<tr>

<th>Name</th>

<th>phone no</th>

</tr>

<tr>

<td>arya</td>

<td>788599499</td>

</tr>

<tr>

<td>chithra</td>

<td>65789398</td>

</tr>

<tr>

<td>anjana</td>

<td>564774884</td>

</tr>

<tr>

<td>swathi</td>
```

<td>896904008</td>

</table>

click Here

<map name="img hotspot">

<area shape="rect" coords="34,44,270,350" alt="img" href="link.html">

</map>

<u>GO To Top</u>

</body>

</html>
